

#### Materials Needed:

- 8 1/2" x 11" Intense Teal Prism cardstock--Bazzill
- 12" x 12" Fig Swirl cardstock
- 8 1/2" x 11" Papaya Puree Dark cardstock
- 8 1/2" x 11" Papaya Puree Medium cardstock
- Cool Pastels pigment ink--Inkadinkado (6075233)
- Pastel & Garden Pastel chalk ink--Inkadinkado (6075190)
- Earthtones pigment ink--Inkadinkado (6075185)
- Mini brads
- Stamp Masking Paper--Inkadinkado
- Pop Dots
- Dry adhesive, such as a tape runner

#### Suggested Tools

- Paper trimmer
- Bracket edger punch--EK Success (6070501)
- Heat tool
- Butterflies clear stamp set--Inkadinkado (6074200)
- Clear block (to use with clear stamps)

#### Instructions:

1. Cut an 8" x 5" rectangle from Papaya Puree Medium cardstock. Fold it in half by bringing the 5-inch sides together to form a side-folding card.
2. Cut a 3 5/8" x 4 1/4" rectangle from Fig Swirl cardstock. Stamp an assortment of images on the cardstock using Coral, Café au Lait, and Aqua inks. Use the masking paper to overlap images.
3. Cut a 3 3/4" x 4 5/8" rectangle from Papaya Puree Dark cardstock. Use the edger punch along the top and bottom edges. Adhere stamped cardstock on top of the rectangle, then add the brads in the upper right corner. Adhere to card.
4. Stamp "friends" on Fig Swirl cardstock using Aqua ink. Trim around the image to form a small tag shape with the right side taller than the left side. Tint the edges of the shape using Aqua ink.
5. Stamp five images in a "+" fashion on a piece of Intense Teal cardstock using White Linen ink. Cut away the center image so you have an opening in the center of the "+". Trim the outer edge of the cardstock 1/4" from the center opening. You should now have a 1" frame with just a small portion of the outer images showing on each side.
6. Center the frame over one of the images on the Fig Swirl cardstock and place the tag shape to the right of the frame. Adhere tag shape and frame using foam adhesive.
7. Stamp two butterflies and striped background on Fig Swirl cardstock using Café au Lait ink. Cut out the butterflies. Adhere one to the frame and one to the tag shape.
