- Alcohol ink handle--Ranger
- Crop-a-Dile or Big Bite--We R Memory Keepers
- Sanding block
- QuickStik or craft knife (optional)

#### Instructions:

Run metal plate through vine embossing folder. (\*Note: This will emboss metal, but will dull the plastic plates over time, so do not over-use folder for metals. Folders will still work with paper.)

Apply green ink and blending solution to inking handle and rub over embossed metal.

After ink is dry, lightly sand the top of the metal to remove the inked finish from the flowers.

Use Crop-a-Dile to punch two holes in top of metal covers and one in lower right corner.

Ink flower using pink ink and blending solution and allow to dry.

Adhere pink flower to cover by attaching to album cover with a brad through the center of the flower and through the hole punched in the cover.

Add a few clear gems near flower, using a QuickStik or craft knife to assist you, if necessary.

Cut cardstock into twelve 3 7/8" x 3 7/8" pieces and punch holes in same location as covers.&nbsp; Use Crop-a-Dile to punch all the pages at once to make sure they're aligned correctly.

Tie front cover, inside pages, and back cover together with green ribbon.
