Suggested Tools

- Scoring tool
- Paper trimmer

Instructions:

Position quartz paper horizontally (11" edge at the top) and, using a scoring tool, score vertically at the 1" and 6" marks. Fold on scored lines, using a bone folder to create a crisp edge. Rotate card. You will end up with a 5" x 7" horizontal folded card with a 1" flap on the inside. Use Wonder Tape to adhere the edges only of inside flap, creating a pocket. Cut scallops off a piece of scalloped cardstock. Adhere glitter stripe patterned paper on top of scallop so only a small portion of the scallop is visible, as shown. Adhere to front of folded card, near the top edge. Use Stardust pen to dot scallop. Add rub-on sentiment and embellishment to front of card, as shown. Add rub-on sentiment to inside of card, above pocket. Slide gift card or money inside inner card pocket.
